He taught everything correctly and loved his teaching methods

Discussions gave great insight to people's thoughts.

Seeing everyone present and hearing everyone's thoughts

I really liked how he incorporated current events every day in class! I think this is very important!

Perfect amount of time to prepare for quizzes and assignments and understand lesson

This class had great discussions, and was very interesting.

The course was well structured and the professor is very knowledgeable and great at teaching and interacting with students.

The movie reflection papers.

His teaching was good, and he was always trying to get kids to participate and I really enjoy it. Overall, everything was good about his class.

Movie Reviews

What worked well was how he was able to keep the class focused whenever Madison Cook got the class off topic.

the way the slides & all other materials were online, it was very helpful for re-doing my notes later

- This course has taught me a lot about government topics and interesting views from an outside perspective.
- Overall, a great experience

The articles of current events and his experience for seeing the world and comparing it to what we are learning

Movie papers and posted notes

Projects and exams relevant to course material

Nothing. He's great!

More discussion questions

Nothing I can think of

I think what could be improved is for the professor to speak louder.

N/A.

Nothing I can think of.

The only thing that could be improved is the content not being so similar and repetitive from the first to second semester.

Very thoughtful. Thank you!

*Honestly if the lights weren't so bright...

Sometimes the professor would mumble,
but I have a sister who mumbles so
it worked out, but I would say that

- Have the discussion of possible open-book test
just because I think there are a lot of government terms that
people have never heard of and have difficulty understanding the term.

I can't think of anything. He didn't say as if the discussions he won't help, it was thier if we asked for it.

Course was great
More grades would be cool

THANK
YOU
